MICROWELL DRY Siren is the ultimate superstar, the first ceiling swimming pool dehumidifier in the world. Combining all what Microwell technology has to offer, DRY Siren is an intelligent and visually captivating solution of paramount performance, setting a new tide in the industry. Breathtaking dehumidifier with extra features.

**DEHUMIDIFIER**

MICROWELL DRY Siren is cutting edge dehumidifier, designed to meet the highest standards and user experience. As the first round ceiling dehumidifier DRY Siren is constructed as dual split unit, capable of all round and thorough humidity extraction.

**LED LAMP**

Built-in LED lighting system is using 50W LED LAMP. With user-friendly options for adjusting light brightness and colour temperature the LAMP can be easily adjusted to meet any customer's demands.

**GLOBAL REACH | 24/7 REACH**

DRY Siren is connected to live internet via WIFI. This allows a user to reach hers or his DRY Siren 24/7 from any place on Earth with internet connection. This global coverage is ensured by 99.9% availability of DRY Siren server where application and system are operated. Being out of your home or out of your property, you can still see the actual humidity and air temperature in your pool. Also you will see if your DRY Siren is working, currently drying or in stand-by.

**LOUDSPEAKER**

Most convenient extension of DRY Siren functionality is a Bluetooth speaker with output of 80W. Easily paired with any Bluetooth device, built-in Bluetooth speaker streams music, radio or podcast, enabling full and rich multimedia experience.

**MICROCLIMATE PROTECTION**

Overseeing DRY Siren at work and monitoring the levels of humidity in real time is Microwell microLIGHT+ technology that transmits the humidity reading into a multi-LED light system to deliver complete microclimate protection.

**FULL CONTROL**

DRY Siren mobile application allows you to actively take control of dehumidification process, LED lamp, Bluetooth speaker, microLIGHT+ and unit's self-diagnosis. From anywhere in the world, anytime, you are able to observe your unit's current status and air relative humidity and air temperature.

**NO NOISE OR VIBRATION**

DRY Siren is a split dehumidifier with the compressor out of pool hall. The only sound you can hear while the unit is running is a DC fan. This is extremely quiet /35dB(A) from 1m/.

Siren

DRY Siren. Standing among the stars.
